A GRATEFUL PEOPLE Render Thanks to the Giver of

All Good. HOW THANKSGIVING DAY PASSED The President Attends Church-A General

Holiday in the Large Cities of the Union. WASHINGTON, November 24.-There was nothing unusual in the observance of Thanks-giving day in this city. At Central Union mission long tables were spread with delicacies and 1,500 poor people were entertained. Mrs. Cleveland sent a great quantity of flowers to be used in decoration, and many well-known matrons donned white aprons and waited on the tables, while choruses of young ladies sang

The president observed the day quietly, in the morning attending church with Mrs. Cleveland, and in the afternoon eating his Thanksgiving dinner at Oak View with Mrs. Cleveland and her three lady guests.

New YORK, November 24.—Thanksgiving

day was observed in New York with more apt interest than usual. The weather was clear, with a tinge of frost in the atmosphere, all services at churches were well attended. Down town exchanges and all places of business were closed. Special services were held in the churches, special dinners served at hotels, extra lunches placed on the counters of saloons and exciting games contested on grounds devoted to athletic sports. Up town stores were not generally open, and nearly all were closed at noon. The railways, both surface and elevated, carried unusually large

surface and elevated, carried unusually large crowds of passengers.

RALTIMORE, November 24.—Thanksgiving day passed very quietly in Baltimore. There was an almost constant rain, and the atmosphere was raw and disagreeable. In the formon the churches in which services were held were fairly well filled, and in the afternoon and evening there were crowds at the theaters. Business was entirely suspended and the holiday was more general than for years past.

CHARLESTON, S. C., November 24.—Thanksgiving day was generally observed here. There was a partial suspension of business and services were held in nearly all the churches, sermons referring, in most cases, to the deliverance of the city from destruction by the earthquake.

erance of the city from descriptions carthquake.
RICHMOND, Va., November 24.—Thanksgiving day was very generally observed in this city. Churches were filled with large congregations in the forenoon and business during the day was almost entirely suspended. Matiness at places of amusement were well patronized. The weather was partly cloudy, but

muite pleasant.

Berlin, November 24.—A Thanksgiving banquet was given to the American colony at the Hotel Armin today. Mr. Pendleton, United States minister, presided.

Loxdon, November 24.—Sir Edward Thornton presided at the Thanksgiving banquet given by the American club, this evening. Many prominent Americans were present.

A TOBACCO DISPLAY.

A Fine Display at Danville-Many Prominent

DANVILLE, Va., November 24.—The first tobacco fair ever held in this part of the country opened here this morning with a big trades parade, in which all branches of mercantile parade, in which all branches of mercantile and manufacturing business were represented, and in which the display was very fine. After the procession had disbanded, the people were addressed at the Academy of Music by Hon. R. B. Davis, and then pocceded to the two immense exposition buildings where there is a trades display and magnificent exhibit of bright tobacco. No such display of tobacco ever was seen in this state, and the fair is a great success. Prominent tobacco men are here from all parts of the country, and are delighted with the exhibition. The city tonight is illuminated with fireworks and thronged with visitors.

The Pedestrian Match.

PHILADELPHIA, November 24.—The management of the pedestrian match profited largely by the Thanksgiving holiday. At two o'clock by the Thacksgiving holiday. At two o'clock this afternoon the big rink was packed with people and as the crowd was constantly increasing, the price of admission was doubled. This increase did not affect the attendance, which was good throughout the day and night. Little-wood, the Englishman, continues his good work, and tonight is ahead of Ward's record for the same number of hours. He expects to beat Fitzgerald's 142 hours' record of 610 miles.

PROVIDING FOR CONFEDERATES.

PROVIDING FOR CONFEDERATES.

A Home to be Erected for the Veterans of the Confederacy.

Columbia, S. C., November 24.—[Special.]—One of the most important bills to be introduced into the house of representatives within the next few days is one by Dr. Pope, a representative from Newberry, the object of which is to provide a state home for the disabled confederate soldiers and sailors of South Carolina. The provisions of this bill include, first, a call for the donation of not less than 100 acres of land and \$25,000 for the buildings to be erected, from any locality in the state; the board of trustees contemplated in the bill to pass upon and decide the location from among those proffered. The entire management of the institution will be vested in this board of trustees, the members of which are named in the bill, and include the most prominent of the state's confederate leaders. The number of beneficiaries to be admitted to the home is to be equal to the representation of both houses of the legislature, and apportioned among the various counties in proportion to their representation in the legislature. The bill further provides for an annual appropriation by the legislature of \$25,000 for the support of the institution. The measure will doubtless go through both houses with little or no opposition.

An Accident on the Cincinnati Southern. CHATTANOOGA, Tenn., November 24,—[Special.]—A terrible collision occurred on the cial.]—A terrible collision occurred on the Cincinnati Southern road, near Nemo, ninety-five miles north of this city, last night, between an extra freight train going north and freight No. 15 coming south. Both engines were badly wrecked and seven cars of the extra were telescoped. Fireman Ben Cook, of Science Hill, Ky., was instantly killed, and brakeman George Leniming, of Ludlow, Ky., was crushed so that he died at 4 o'clock this morning. Engineer Hollenback was badly scalded about the legs and feet. Conductor Watson was seriously hurt. The wreck was a bad one and the road was not cleared until 11 o'clock this morning. The blame for the accident is placed on the night operator at Lansing, and the conductor and engineer of the south bound train.

Farmer Tillman's Measure.

Columbia, S. C., November 24.—[Special.]—At a special meeting this morning of the board of trustees of the state university a resolution was adopted recommending to the legislature a plan to reorganize the South Carolina college upon a thorough university basis, with extensive enlargements in all the existing departments, the addition of several new departments, and in particular the material enlargement of the agricultural branch of the institution. The recommendation as the later feature is made, it is to be presumed, for the purpose of conciliating and meeting the wants of that class of the farming element of the state, who, led by "Farmer" Tillman, are now clamoring for the establishment of a separate agricultural college. The legislature will doubtless adopt the recommendation of the board of trustees. Farmer Tillman's Measure.

Two Children Burned to Death. Two Children Burned to Destin.

Columbia, S. C., November 24.—[Special.]—
The house of Samuel Love, a colored farmer, of Chesterfield county, was burned yesterday and two small children who were locked inside and two small children who were locked inside perished in the flames. One was Love's child and the other the child of Sarah McQueen, who lived with them. Both mothers were working in a field near by, and heard the cries of their children, but supposed they were calling for nothing in particular, and did not pay any attention to their call until it was too late. Love's former wife was burned up in her house several years ago.

Pistols, knives and stones were used promiseuously. Two men were shot and twelve of fifteen others injured, but no person was killed. The rioters made their escape before the police-arrived.

Getting Into Deeper Trouble.

BIRMINGHAM, Ala., November 24.—[Special.]
The trial of Willingham, the bigamist, was begun at
Avondale before Justice Hamlin. The prosecution
proved that he had a wife and two children in Georgia, and other important witnesses have not been examined. Since the arrest of Willingham the d ficers have discovered that he fills the description of a train robber wanted in Texas. He is still in jail, and the trial will be resumed tomorrow.

Fire in Screven.

Sylvania, Ga., November 24.—[Special.]—
The dwelling house, barn and outhouses of
Mrs. Samuel Parker, in this county, were
burned down on Monday night. The fire is
thought to have originated from a defective

Opening of the Reichstag Yesterday.

THE SPEECH READ FROM THE THRONE On Friendly Relations With the Powers-Sympathy Expressed For the Suffering Crown Prince. BERLIN, November 24.—The reichstag was

opened today. Minister Von Boetticher read the speech from the throne. The speech was substantially as follows:
Gernany, in her foreign policy, has successfully endeavored to strengthen the peace of Europe by the cultivation of friendly relations with all of the

the cultivation of friendly relations with all of the powers, by treaties and alliances, aiming to avert the dangers of war, and to jointly oppose any unjust attacks. Germany has no aggressive tendencies, she has no wants to be satisfied through victorious wars. An unchristian disposition to surpr'se neighboring peoples is foreign to the German nature and to the constitution of the empire. The military organization of the country is not calculated to disjury, the peace of her neighbors by arbitrary attacks. Germany is strong in parrying surprises and in de-Germany is strong in parrying surprises and in de-fending her independence. She wishes to become so strong that she can face with composure every

so strong that she can face with composure every danger.

The reopening of the reitchstag comes at a serious time. The grave complaint with which the crown prince had been visited fills the mind, not only of the emperor, but also of his august allies and the whole of Gernany with anxious care. Nothing that human science and knowledge and careful tending can do will be left undone. Our eyes and prayers, however, are directed toward God, whose decrees rule the destinies of nations as well as the life of the individual man. Firm confidence in God and the faithfull fulfilment of duty have been in all especially grave moments, our tried supports. Our

life of the individual man. Firm confidence in God and the faithful fulfilment of duty have been in all especially grave moments, our tried supports. Our people now also enable us to do justice to the labors awaltin/legislation.

There has been a graftfying improvement in the financial condition of the country, and it is expected that next year will show a surplus of nearly fifty million marks. Bills will be introduced abolishing compulsory contributions on the part of officers and imperial officials to the widows and orphans' fund; increasing corn duties; modifying the landwher and landstrun system, so that it will be considerably strengtheued; relating to the insurance of artisans in cases of old age and sickness: modifying the friendly societies' law with regard to the sale of wine; temporarily prolonging the Austro-German treaty, and radifying treaties of commerce with some American states.

One hundred and fifty deputies were present. The places reserved for members of the court were not occupied. In the diplomatic gallery there were only a few military attaches, but the public galleries were crowded. At noon members of the Bundesrath entered the white hall, which was illuminated, and took positions on the left of the throne.

During the reading of the speech, Minister Von Boetticher was often interrupted by applause and enthusiastic cheers.

Von Boetticher was often interrupted by applause and enthusiastic cheers.

At the close, Herr Von Boetticher, having declared the reichstag open, Herr Weddell Piesdorff, president of the body, called for cheers for the emperor; which were given with enthusiasm. The president, in his opening address, alluded to the serious illness of the crown prince, and the grief of the country over his fate. Anxiety concerning his condition relegated all other thoughts to the background. Members would join, the president said, in expressing their sorrow and declaring that they placed their confidence in God's grace and mercy. He asked authority to convey these sentiments to the emperor and send the following telegram to the crown prince:

"The reichstag in profound reverence and cordial love thinks of your Imperial highness. May God protect your pre-dous life and preserve it for the salvation of the fatherland."

The deputies listened to the address standing, and unanimously approved the president's suggestions.

The weather was fine at San Remo today; and the crown prince took both a drive and v walk. He looked well and appeared to enjoy exercise. The Krenz Zeitung says Dr. Schencrlin, in the course of experiments in the clinical department of Charity hospital, discovered bacallus, the existence of which has long been suspected to be the cause of the cancer.

cancer.

On bourse today prices were strong at the opening, but receded toward the close, owing to heavy realizations. The reaction was partly due to the emperor's speech failing to meet expectations regarding relations with the czar. Russian securities fell \( \frac{1}{2} \) per cent and other foreign securities \( \frac{2}{3} \) per cent. Austrian credit declined 2 marks. Money was easier.

GREVY'S RESIGNATION. He Authorizes Ribot to Form a New Cabi-

net.

PARIS, November 24.—M. Grevy has requested M. Ribot to form a cabinet, and charged him to convey to the chamber his message of resignation. M. Ribot consented, charged him to convey to the chamber his message of resignation. M. Ribot consented, but advised M. Grey that, as the message was a political act, the tenor of which required the approval of the cabinet, the president ought to confer with the retiring ministers. M. Grevy accordingly summoned M. Rouvier and his colleagues. The Ribot cabinet will probably include M. Flourens, M. Waldeck Rousseau, M. Sadi-Carnot and General Ferron. Radical journals strongly oppose the election of General Saussier to the presidency.

It is reported that M. Ribot, in a second interview with M. Grevy today, advised the president to retain Rouvier's ministry in office until he had resigned.

THE SOUTHERN LUTHERANS, The Church in the South in a Flourishing

Condition.

SAVANNAH, Ga., November 24.—[Special.]—The united synod of the Evangelical Lutheran church in the south, met this afternoon in the church of the Ascension, this city. Forty-six clerical and lay delegates were present from the synods of Georgia, South Carolina, North Carolina, Virginia, Southwest Virginia, Tennessee, Halston and Mississippi.

President Reschan, of Wilmington, N. C., presided. His annual report was the first business that came up. It showed the Lutheran church within the territory of the united synod to be in a flourishing condition, with a highly encouraging outlook for the future. At the conclusion of his report, the body proceeded to elect officers. Dr. E. T. Horne, of Charleston, was elected president. He asked until domorrow to select committees, and the synod took a recess until 9 o'ciock tomorrow morning.

HARD ON BRER RABBIT.

A Large Reward for Some Plan to Exterminate Him.

nate Him.

New York, November 24.—The firm of R. W. Cameron & Co., of this city, who are agents for the government of New South Wales, are in receipt of a communication offering a reward by that government of \$125,000 to American inventors for any process which will exterminate rabbits. The latter, which were introduced into Australia and New Zealand in 1864, have increased to such an extent as to become a dangerous pest, and now threaten to destroy the sheep pasturage of the entire country. The magnitude of the evil and the urgency of the case are indicated by the amount of reward, which, at the same time, is an expression of confidence in American ingenuity.

AN INHUMAN FATHER Who Leaves His Child on the Street to Die.

COLUMBUS, Ga., November 24.—[Special.]—Willie Colbert, a negre girl, brought an eighteen-months-old child to the courthouse this morning and desired to know what she must do with it. The girl reports that she found the child lying in the street in the northern part of the city last night. It transpires that the child belonged to Ella and Allen Clark. They separated some time ago, and Ella has been trying to get Allen to feed the child. This he refused to do. The girl took the child to the home of ber husband's mother and left it. When Allem returned home and found the child there he took it out into the street where child there he took it out into the street where he left it to die. The child was badly burned about the hips, and was almost dead when found. The inhuman father could not be found today.

THE GRAND CLIMAX.

The Big Parade and Meeting of the Prohis.

ELOQUENT SPEAKERS AND SPEECHES -The Spreches-Out of Door Meetings-Gossip.

It was the grand climax.

The torchlight procession and prohibition meeting at the warehouse last night made the grandest demonstration of the campaign. Early in the evening the vicinity of Hunter and Whitehall and Hunter and Pryor streets began to fill up with enthusiastic prohibs, and as the hour for the march drew near there was an immense crowd of people. Among them were noticed a number of Atlanta's very best

As is usual with a big body of men there was considerable delay in starting. After the line began to move a grand sight was presented to those who were in position to view the procession. The streets were filled with white men and colored men bearing torches and shouting for prohibition. Along almost the entire line of march the streets were lined with curious, interested people, some of whom cheered the marchers on, while others devoted their time to scanning

each face, doubtless making mental notes of the personel of the procession.

The procession was formed in two sections, one white, the other black, and both were on the streets at the same time. The whites formed on Hunter street at the Young Men's Prohibition headquarters and marched up to Whitehall street. From Whitehall the line moved down Alabama into Pryor, from Pryor to Huner, up Hunter to Whitehall, and along Whitehall to Alabama again. At Alabama the line marched towards Broad, along Broad to Marietta, down Marietta and Decatur to

Loyd, along Loyd to Hunter, and up Hunter to the warehouse.

At the warehouse a royal reception was ten dered the marchers. There was a big crowd outside the building, and as the procession, bands playing and marchers yelling, hove in sight the waiters sent up a yell of welcome

which was echoed by the crowds inside.

As many of the marchers as could do so made their way into the warehouse, filling the seats set apart for them. Others remained outside to form the nucleus of out-of-door

REV. J. B. HAWTHORNE SPEAKS.

Rev. Dr. Hawthorne was greeted with rapturous applause as he advanced to the front.

Dr. Hawthorne said:

"I have spoken in every ward in the city and in every district in the county, but this is the first time I have addressed an audience in this tabernacle. At the beginning of the campaign one orator designated me to preach the funeral of whisky. I decline to serve. I do not fayor any great demonstration or any exnot favor any great demonstration or any expusive, imposing funeral. A cheap coffin and a deep grave will do. There is a moral and remaind the driven as there was to cannot be driven. There is a moral and religious side to this issue as there was to slavery and is to the lottery question. But the eyes of the antis have been opened, and in order to get a minister to support their side they imported one from Thomasville.

Loud calls were made for Grady! Grady! but Judge Pendleton introduced as the next speaker.

Mr. Hill modestly stepped to the front and waiting patiently until the applause had subided, said:

"I am not surprised that you should call for Grady. The time is not only coming when the voice of Atlanta shall call him, and Georgia shall take up Atlanta's voice, and the voice of Georgia will become that of the United States. [Long continued applause and cheers for Grady.]

[Long continued applause and cheers for Grady.]

When I look upon the faces of this vast multitude, all animated by the same noble cause, I rejoice that Providence has cast my lot among such a people, and that I can lift my voice in such a noble cause. [Applause.] We have met the enemy at every point and they are ours. [Cheers.]

Our platform is: Kéep the barrooms out. The platform of the antis is: Bring the barrooms in. It would be a great wrong to bring them back in the face of the protest of this audience tonight. [Just here Colonel G. W. Adair was called off the stand to address an overyflow meeting at the corner of Broad and Hunter streets.]

Testimony like this cannot be gainaid or put
down. Taken from Mr. McBuruey's own books in
the quiet of his own office, it changed his convictions, and he will change his vote.

Mr. Grady quoted other instances of prosperity and of changes, and then said:

"There is something that goes deeper than argument. It is the testimony that steals in the heart
and flashes in the conscience. It comes to a man
when going home at night he sees the ruddy windows of his home glesming through the darknessit comes when he is in the peace and hush of
his home with the world shut out—itcomes when he looks at his old mother
serene in her own future but yearning over him, as
he stands in the crisis of his life—it comes to him
when he catches his wife's eyes full of soft, unspoken entreaty, and her hand laid in mute pleading on his own—it comes to him when he sees his
boy, bearing his image and his hopes, hurrying on
to school or to business—it comes when he hears the
patter of little teet in his haliway, sees little heads
clamber about his knees, warm little lips seeking
them to such music as the earth has not heard and
heaven shall not surpass. My friends, do not disregard these impulses. They are not mere sentiment.
They are the convictions of the soul, deeper than
any convictions of the brain can be. They are the
best and holiest emotions of your nature, and you
cannot go wrong when following them. Your reason provides proofs of what they dictate.

## THE OUTDOOR MEETINGS.

Enthusiastic Speeches From Eminent Orators-The Crowds.

tors—The Crowds.

After the warehouse had been filled to its utmost capacity, the streets on both sides were still full of people badly disappointed at being mable to gain admission.

Bound not to leave without hearing some speaking, they began clamoring for orators. A store box was rolled up to the lamp post at the corner of Hunter and Forsyth streets, and from this enthusiastic speeches were made by Rev. Dr. Lee, Rev. Mr. Grandison, Senator Colquitt, Colonel George W. Adair, Mr. Tom Corrigan and Dr. Love.

As Mr. Grady attempted to pass through the prowd on his way from the inside meeting, there were loud calls for him, and he was compelled to respond in a short speech.

Farther up Forsyth street there was another improvised stand, and from this Colonel Gay, Judge Kite and Judge Jim Anderson made telling speeches.

As some of the crowd began to move away another meeting was held at the corner of Hunter and Mitchell. The speakers were Colonel Buck, Rev. W. G. Grandison, Mr. Corigan, Captain Gay, Mr. Fleming and others. In addition to these meetings the streets were full of men discussing the burning question. As these crowds were made up, as a rule, of both prohis and antis, hot discussions

And there were anti-prohibitionists who didn't do much cheering of that sort. And there were people gathered from mere curiousity—strangers who never had seen a onstration, and citizens who wanted to

see what it amounted to.

The line was a big one and created great hopes among the prohibitionists, at the same time making some antis quite despondent. The line appeared to those unacquainted with crowds to be an immense throng of people. Captain Talley, Mr. A. P. Stewart and Mr. C. C. Nelson stood upon the corner of Broad and Alabama just before the line moved out of Whitehall, which then appeared one seething mass of prohi voters. The three gentlemen are all pronounced prohis and were jubilant, Captain Talley remarked:

"Well, I am just going to buy a carriage horse," said Mr. Nelson, "and I'd just as leave pay for two as one. So I'll bet anybody a horse the prohis win."

After the voters had disappeared the streets were full of people discussing the situation. The prohis were elated and claimed the battle.

"Why," said one, "that crowd is invincible. There are two thousand men there, and as many more at home and in the warehouse. The right is ours. We'll win it big, and without trouble."

"No you won't," put in an anti, "that parade is a failure. You have put your whole soul in it, and of the two thousand you claim were out, and there were not over eighteen hundred, fully three hundred to four hundred were boys. ## A "WHIZZER."

This Is What Dr. Cochran Calls the Meeting

The largest gathering of white and colored men that ever took place at West End, occurred there last night. And in that vast concourse of voters, there were only two prohibitionists, who were converted over to the wet side after they listened to the unanswerable executive of the great cracte from Texas. side after they listened to the unanswerable argument of the great orator from Texas.

In speaking of the meeting, Dr. Cochran, characterized it as a "whizzer." Then he went on to describe what he meant by this grotesque appellation. His explanation, in his own words, is about this: "I mean by this that our meeting was the best I ever attended in my life. I have, off course, been present at large gatherings, but I connot recall any meeting which pleased me as this one did. The people were men of intelligence. They came to listen, and it was a genuine pleasure to speak to them. And how intensely earnest they were! I never saw such enthuslasm. They delighted me, and I came away feeling a better antiprohibitionist than when I went to West End. My opinion is that West End will roll up a towering majority tomorrow."

A brass band was playing in front of the hall when Dr. Cochran and the Rev. J. W. Carter arrived. They were warmly welcomed and escorted into the hall and given seats upon the stand.

The hall shook with wild cheers as Dr. The hall shook with wild cheers as Dr. Cochran made his appearance, and it was some moments before the applause subsided sufficiently for his voice to be heard. His speech was a ringing one. It captivated the crowd. He told the crowd that he came to bring them glud tidings; that he came to tell the good people of West End that he scented victory in the air. He spoke in a hopeful strain and expressed the utmost confidence of the result of the election.

His speech was, in the main, similar to the one he delivered in DeGive's opera house, and he garnished it with some new and striking jokes and illustrations. He produced a good impression upon his hearers and they gave him unstinted applause.

The Rev. J. W. Carter followed in one of his effective offhand talks. He caught the crowd.

The meeting was in all respects an excellent

### THANKSGIVING DAY.

The Churches Well Filled, but Otherwis the Day but Little Observed. A number of churches in the city held

A number of churches in the city held special thanksgiving service yesterday.

Among those that were opened were the First Methodist on Peachtree, St. Luke's Episcopal, the Church of the Redeemer, the Church of Our Father, St. Philip's, Central Presbyterian, and a number of others. Excellent sermons were preached in each church, in the majority of cases the minister being other than the pastor of the church. This was because several congregations united in thanksgiving service and the pastor gave way to one of those who had been invited to assist.

The music was an especial feature of the day's exercises. Special programmes had been prepared, and the best voices of several choirs joined together in rendition of selections appropriate to the occasion. The congregations, while largely composed of ladies, were unusually large, and it was generally remarked that the thanksgiving exercises were better attended than ever before.

SAVANNAH, Ga., November 24 .- [Special.] T. P. Ravenel, law partner of Mayor Rufus Lester was married this evening to Miss Emily Howard, o this city. The ceremony was performed by Rev. C. H. Strong assisted by Dr. Wilson of Charleston H. Strong, assisted by Dr. Wilson, of Charleston. The wedding was in St. John's church, which was crowded. The groom was formerly of South Carolina. The attendants were Misses Ravenel, of Charleston; Chesney, of Macon; Gignalliat and Heyward, of South Carolina; Mercer, Bond and Heyward, of Savannah; and Messrs. Ravenel, of Charleston; William Leaken, of Savannah; King, of South Carolina; Gignilliat, of Darien: Pinckney Huger, Joe Lang Howard, of Savannah. The bride and groom left for an extended tour in the north after the reception at the residence of the bride's uncle, Thomas Gadsden.

The prohibitionists, through Tom Corrigan, worked up the scheme to stop Yellowstone Kit from speaking. He put the ladies between the mayor and himself. But "Long Tom" will never be clerk of Fulton superior court by such a dodge as this, neither will Captain Bray become ordinary.

That Will Take Atlanta From Under the

It reminds me of a story I once heard of a man

anon exciained: "It will nearly turn! It will nearly turn!"

In the original prohibition law of Georgia there was no exemption in favor of domestic wines. It seemed a very a mises and even desirable exemption to those who passed (if e act. It proved to be a creature of such devilian snape that the prohibitionists new at it with great rage, and it was knocked out in the first round.

That was the nest auth in the Georgia law. The prohibitionists now tell us they intend to provide a law creating a dispensary, where I quors may be sold under the direction of certain physicians whose respectability will be passed upon from time to time to that is amendment number two.

That is amendment number two.

That is amendment number two.

There is another desect in the law which is a ready confessed, but no reme dy therefor has yet been proposed. I reter to the importation of whisky vize the jug-trains. To make pass this defect, let me say that there is a bunding in Atlants to which I can go and get whisely without any restraint the action. I reter to the Southern express office.

Amendment number three will prohibit the importation of liquore, and its passage is as certain as death. The prohibitions have suit up the winerooms, because with winerooms open prohibition was a burlesque. If we are to follow the lead of the

cath. The profibitionists have start up the winerooms, because with winerooms open prohibition
was a burlesque. If we are to follow the lead of the
prohibitionists the cays of the jug-train are numbercd. As sure as tace, there can be but one end to this
business under total prohibition, and that is a haw
which will allow no man to bring liquor into Foliton
cenuty, and the contestation of all inquoresso brought.
Such laws are in force in communities where prohibition is older than it is in a tanta. Now, if you
stop the jug-train you start the wagon-train. If you
stop the wagon-train you must save the individual
man. You may say that is a barsa law, and will
never be adopted. I teli you it is already in operation in some a ctome.

If a man makes whisky contrary to the laws of
the United States, not only is the whisky confiscated,
but the wagon on which it is halled and the horses
that puil it are seazed and sold, and the owner is
thrown into prison. Worse than that. If I lead my
reighbor a team to hail raits and he should, even
without my knowled, e, hat! lifleft whisky, I lose
my team. The building in which illieft whisky is
made can be confiscated. In the face of these laws
enacted without merry and executed in utter disregard of personal rights, by the force of repeating
rifies and prison bars, there is today an illient
distillery in Georgia to every four hundred voters in
the state. You may be stree that what has been
found necessary in suppressing liquor elsewhere
will be reached by us sooder or later, and that it
will be no easier for Atlanta to suppress the sale and
use than it has been if r the federal government to
suppress the illieft manufacture.

All prohibition legislation is experimental. Maine
is still experimenting. If we get from under the
present general law, which was made casecial for
the qualified voters, and we may be sure the elections will always be trought on under the
present general law, which was made casecial for
the qualified voters, and we may be sure the elections wil

Now we come to the question. Are spies, searches and confiscation more desirable than any form of restriction that could be adopted?

We see the way the United States treats moon-shiners and we see how it operates. Do we want the same thing on a small scale in Atlanta? I am not an alarmist nor a paid him, nor a hireling of a whisky ring, but I assert that in the entorcement of a total production law methods that I do not approve are necessary and will be resorted to.

I have not bought any intoxicating liquors in Alanta contrary to law, I have never patronized the jug train. I have never an about the same think we should have in Atlanta any neclies and drunken men. I do not think we should have in Atlanta any neclies amount of temptation for either old or young rich or poor, black or white. Temptation is one thing supplying a proper demand is altogether different.

or poor, black or white. Temptation is one thing, supplying a proper acmand is altogether different. There can be no wrong in the sale of liquog it the element of temptation is lacking.

Public sentiment in Atlanta is ripe for restriction. It will not sustain total prohibition and the means that are n seessary to enforce total prohibition. If the county goes wet the prohibitionists, if they are really temperance people, wal join with the antiprohibitionists in the adoption of a good restriction law, and we will proceed be cefully to build up a temperance sentiment even stronger than that which now pervades the cfy. If the city goes dry we will have taken another step in the direction of that era of strife, so reches and confiscation which would be unquestionably abead of us.

The arrests and searches that we have already seen in Atlanta are but a shadow compared to what we would have unaer total prohibition. The centure we would have uner total prohibition. The centure of strife, so we have a ready seen in Atlanta are but a shadow compared to what we would have uner total prohibition. The centure of the sector at their PERSONS, houses, papers and of fects against unreasonable seatenes and seizures SHALL NOT BE VIOLATED. Yet upon the streets of Atlanta recoile have been selzed and searches.

of Atlanta teople have been seized and search without being so much as suspected of crime. I we desire this reign of the in o mers? Are we read to be a spy-ridden (t.)? Shall the era of the snea be hastened in?

to be a spy-ridden cit.? Shall the era of the sneak be hastened in?

The success of anti-prohibition does not mean a return to it e old deagery system. It means the adoption of such reasonable it quor I was as are demanded by the existing put he sentiment. It means a compromise—hot a compound as white whisky, but a compounded between brother Atlantiaus. If means that this city will the no longer disturbed by contending faction. It is saying to our wranging pertians. "Peace, be it it."

For my own part i think if we could substitute wholesale it quor houses for the jug trains, we would strike what the common sense and sentiment of this city would approve, and we would obey the injunction, "whatsoever thou doest, let fi be done decently and in order."

THE CONSERVATISM OF PROBIBITION. Unquestionably Good Results Have Followed

EDITORS CONSTITUTION: So much lias been said for and against prohibition of late, in the newspapers and from the rostrum, that it may seem superfluous for so humble and quiet a citizen as myself to attempt to add a word that would be of any weight with, or increase the interest of, our people in the all-absorbing topic. I am no speaker. I wish I possessed the oratorical powers of a Toombs or of a Hill, that I might move the masses to a sense of their duty in this, perhaps, the most important question ever before them.

I have been twenty-two years a resident of the and Better Are Yet to Come

Hill, that I might-move the masses to a sense or their duty in this, perhaps, the most important question ever before them.

I have been twenty-two years a resident of the city of Atlanta, coming here soon after I left the army of Virginia at Appomattax courthouse, and many friends in and out of the city have asked my opinion on this subject. I have concluded to pen a few lines for publication for the first time in my life, to be read by all whom it may concern. In these latter days the newspapers are the great vehicles of information and are the educators of the masses, and while in no sense desiring or seeking notoricty, I want to avail myself of this great power to give expression to my honest sentiments.

"I believe, as Judge Hopkins suid in his great and unswerable speech, it would be a crime to remain silent on the important issue now before us. I would be proud and happy if I could influence one vote in the interest of the great reform movement of prohibition. I am sure if I were to do so, the consciousness that I had thus contributed to so grand a reform of morals, would be a memory, in future days, which "time would be a memory, in future days, which "time would be a memory, in future days, which "time would be impression deeper make. I herefore ask pardon for what personal allusions I have made or may make in this article. I have never been a candidate for any office, nor do I have ambition whatever. My mind does not run on that line, but at the s.m: time I always vote in all elections and feel a deep interest in the affairs of our city and common wealth. I have no political ambition whatever. My mind does not run on that line, but at the s.m: time I always vote in all elections and feel a deep interest in the affairs of our city and common wealth. I have no ax to grind, and the result of next Saturday's election can have no effect on my personal surroundings. Nothing prompts me to throw aside a natural timidity and compared to which death itself is a boon.

I know that by keeping out barrooms with al

side with no thought of wrong, until drawn into the whirl of maddening enjoyment, he returns abashed and remorseful, with the sweet consciousness of innocence gone forever.

And it is wonderful how much material good has been done to our city since prohibition set in. Every citizen with eyes and good reason nust see it. Aside from the moral benefit resulting from the removal of barrooms themselves, we must notice the absence of street loafers—and vagrants. The "roosting places" removed, these birds that are wont to prey upon the industry of others have been compelled to seek other places. Candidly, dear friends, have you not noticed the absence of these worthless parasites upon society? They are gone, but the return of the barrooms will bring them back to stay. Others have spoken of the wonderful decrease in crime and in thriftlessness as attested by the falling off of criminal law suits and distrets warrants, in marshal's sales, in evictions of poor women and children from their humble homes for non-payment of rents. There are fewer prisoners, less wrangling between husbands and wives, less family dissensions, fewer bare-footed street walfs to almost freeze during the cold winter nights.

Gur city is rapidly filling up with new comers, who soek Atlanta on account of prohibition, and this is a guarantee that they come bringing thrift and love of order en! good government with them. It is estimated that there are more than five hundred new families who have removed to Atlanta since prohibition, as attested by the increased registration, by increased attendance on the public schools and by the great scarcity of houses for rent.

I have conversed with friends who live elsewhere and who are raired accrehents, and with many thousand dollars, in which conversations I was lead to believe that if prohibition is again successful they would move here with their families.

If each new comer brings a family, how great the increase! I firmly believe that an enumeration of our population would show upwards of sixty thousand

Atlanta is better off in every respect than I have ever seen it during my twenty-two years' residence. Business has greatly improved in every department (except the whisky traffic). The cotton business of my own firm, Adsir Bros, & Co., has increased upwards of fifty per cent within the past two years. Real estate is higher, reft's fire as high and there is an increasing demand for good houses. New buildings in 1 better ones are being erected. Let me mention one real estate transaction which came under my own observation, and which has not been mentioned: Before prohibition went into effect the John H. James mansion was sold to me for \$31,500, if was afterwards sold for \$40,000 and could not now be hought for \$50,000. Try and see.

I am fortunate enough to own some real estate, both in the central portions of the city and also in the suburbs, every piece of which I can sell today at an advance of 20 per cent or more on the prices of two years ago.

It is not necessary to give other instances. The

at an advance of 2) per cent or more on the prices of two years ago.

It is not necessary to give other instances. The prohibition committee published a large number of transfers of property where values had greatly increased and not one has been denied by the opponents. Judge Holkins, Judge Hillyer and Mr. Grady have presented an array of statistics that have remained unsweared and are unanswerable.

But the result is right without, figures. Look

think we should have in Atlanta any needless amount of tempating for either old or young, rich or poor, black or white. Tempation is one thing, supplying a proper demand is altogether different. There can be no wrong in the sale of liquor if the element of temptation is lacking.

Public sentiment in Atlanta is ripe for restriction. It will not sustain total prohibition and the means that are necessary to enforce total prohibition. If the county goes wet the prohibitionists, if they are really temperance people, will join with the antipolabilionists in the adoption or a good restriction law, and we will proceed peacefully to build up a temperance sentiment even stronger than that which now pervades the civ. If the city goes dry we will have taken another step in the direction of that era of strife, searches and comiscation which would be unquestiomedly ahead of us.

The arrests and searches that we have already seen in Atlanta are but a shadow compared to what we would have under total prohibition. The condition of of sorgia says: "The right of the people to be secure in their PERSONS, houses, papers and effects against unreasonable searches and searches without being so much as suspected of crime. Do we desire this reign of the into mers? Are we ready to be a spy-ridden (ct.) Shall the era of the sneak be hastened in?

The success of anti-prohibition does not mean a return to it cold dogerty system. It means the doption of such reasonable searches and searches and searches in the successing put he sentiment. It means to compormise—not a comporm se which means the thing faction. It is saying to our wrangling purfaces.

ATLANTA, GA., NOVEMBER 25, 1887.

Farmers West and South. There is a lesson for southern farmers in the fact that the farmers of the west belong, fipancially speaking, to the loan institution of New England. The insurance companies of Hartford, Connecticut, have a vast amount of capital invested in western land mortgages. Two or three companies in that city have seventy millions of dollars loaned on that class of securities. The average is about the same throughout New

For instance, Mr. Edward Atkinson, who has a long head for round figures, sent inquirles to some of the largest loan companies in Boston, and discovered that the concerns have written 290,000 mortgages on western farms, 81,000 of which are now outstanding, and that the total amount loaned has been one hundred and eighty millions of dollars, of which seventy-six millions is outstanding.

This seems to be a very bad showing, but is it so really? The agricultural resources of the west have been marvelously developed, and lands have rapidly increased in value. The loans during the past few years have cost the farmers only from 61 to 7 per cent interest, without commission. This is much better than the credit system under which southern farmers have been operating. Under this system, the farmers of Georgia have been and are now paying a rate of interest equal to 150 per cent.

This is enough to crush them, but they manage to scuffle along somehow.

Our prohibition campaign has caused a New York poet to break out with a string of rhymes on the situation. Fortunately, he did not send his verses here for publication. He would have found it expensive.

Bulwarks Against Revolution.

Our esteemed contemporary, the New York Commercial Advertiser, is satisfied that there is no danger of a revolution in this country so long as the federal congres and the supreme court respect the rights of the local sovereignties, and make their legislation and rulings harmonize with the assumption that this is an indestructible union of indestructible states.

This is the old view of it, but when the people show a disposition to drift away from the old landmarks the situation bristles with difficulties. In the better days of the republic it was well understood that this was constitutional government. The higher law doctrine promulgated by the republicans somewhat unsettled public opinion, and during our civil war, and at later periods, the leaders of that party had a great deal to say about the will of the people. Under such teachings it is natural that many of the younger generation should be impressed with the belief that this is a government of majorities. No greater political heresy could be uttered. Our majorities have no right to rule unless they rule in a constitutional manner. When they agree to subvert the form and spirit of our government they do it by main force, and are, in point of fact, revolutionists.

In some localities we have already seen the evil workings of this idea that majorities have the right to control in everything. Demagogues and fanatics secure a following, and when they are strong enough they compel minorities to submit to unconstitutional laws and usurpations of authority. Theoretically there is a remedy in the courts, but our judges are of the people and from the people, and they are more or less affected by popular sentiment. If they sometimes fail to keep the proper distinctions and limitations in view it is not very surprising.

One of the best bulwarks against revolu-tion would be to get rid of the latter day idea that majorities may do what they please. If we do not return to the oldfashioned doctrine there is danger that one of these days the criminal element, the fanatical reformers and a crowd of ignorant and misguided men will find themselves in the majority in one or more states, and then there will be anarchy in earnest. The respect of the people for the constitution and the laws is our best bulwark against

THE New York World mentions the fact that the United States cruiser Atlanta was named in honor of our city, and regards it as a strange coincidence that the question of how much water they can stand is now

Mr. Sherman's Platform.

Mr. John Sherman, of Ohio, has made his formal announcement as a candidate for the republican nomination for the presidency, and in doing so he has taken care to invade the sacred precincts of Mr. Blaine's own little bloody shirt reservation.

The triumph of the Foraker idea in Ohio with the many evidences of Mr. Blaine's determination to re-enter the contest, made it appear that Blaine and Foraker would be the republican ticket for 1888, and that the most prominent plank of their platform would be the bloody shirt. Indeed, so heartily does this combination recommend itself to the masses of the party that there is but little probability that Mr. Sherman's effort to break it will amount to anything more than a fruitless endeavor to have his own name placed at the head of the republiean ticket.

Mr. Sherman makes bold to say that he will base his candidacy principally on the pledge to secure, if possible, a fair count of the vote in the southern states. In other words he raises the bloody shirt and flaunts its gory folds defiantly at Mr. Blaine and Mr. Foraker. He realizes that it cannot be Sherman and Foraker, consequently he is down on Foraker; he likewise knows that either Mr. Blaine or himself must be left, therefore he proceeds to take care of him-

To strengthen his cause, as much as possi ble, Mr. Sherman, availing himself of the his own privileges, for he remembers that he was the great hero of the bloody shirt long before they adopted it.

But Mr. Sherman has announced a platform entirely satisfactory to the democratic party. He will be met squarely on the issue he proposes, and the people of this country will once and for all settle it. As the New York Sun says, "It is a good enough issue. The democratic party will be glad to meet Mr. John Sherman on that issue. Will he carry the otherwise useless Hayes around with him, to sit on the stage in full sight of the audiences he addresses in behalf of a fair count of the vote in the southern

For a week or so the country around Memphis, comprising an area of hundreds of miles in Arkansas, Tennessee, Mississippi and Alabama, has been visited by ing forest fires of tremendous magnitude.

It is said that in Memphis at mid-day, the streets are darker than those of London in the densest November fog. Navigation on the Mississippi is suspended for a distance of 650 miles, the steamboats finding it impossible to proceed through the clouds of

The consequences of these immense fires are disastrous enough, but if they should sweep through a section containing numerous oil and gas wells, it is probable that they would leave complete desolation in

Unfortunately, it is not easy to suggest any reliable safeguard. The northwest has been scourged by these vast conflagrations for generations, and it seems that they can-not be avoided. The day is coming, however, when there will be so little timber in the country that there will not be much material for a forest fire to feed upon.

the repeal of the tax will break up what is now practically a monopoly by enabling manufacturers with small capital to go into the business, and by giving poor men an opportunity to compete with the great manu facturers.

There are several good freasons why the tax should be repealed, and not a single plausible argument in favor of its retention. In the first place, the tax falls on the poorer classes. It is all very well for the reformers and cranks to say that tobacco is a luxury that can be dispensed with. As a matter of fact, it is a necessity.

In the second place, if tobacco were a luxury, it is one that is enjoyed by the poor, and the tax that goes to the government, which doesn't need it, is just as good money as if tobacco were a necessity.

In the third place, the tax on tobacco is a tax on an agricultural product-a product that is just as important to those who make a business of growing it as cotton is to the southern planter, or as wheat is to the wes-

Can a Chinaman Become a Citizen. Hong Ten Chang is a dapper young Chinaman, who is a graduate of Yale college, and holds a law diploma from wealthy Columbia. Chang is a high caste. Chinaman, and in his own celestial land was the son of a father who was rich and influential.

Having completed his collegiate and legal education, Chang concluded the other day that he would like to practice law, and with that end in view, made application to the New York supreme court for admission. The court refused to grant Chang a license on the ground that he was not a naturalized citizen. About ten days ago Chang succeeded in obtaining his naturalization papers, and he will now renew his application

Armed with these documents, it is difficult to see how the courts can deny him the right to practice, though in regard to this point lawyers differ. The right of a Chinaman to become a citizen under the law of 1870, known as the alien act, has not been decided by the courts. Many Chinamen have become naturalized citizens and exercise, undisturbed, the rights of free born American citizens. The clause of the alien act, in regard to this point, declares that 'the provisions of this act shall apply to aliens being free white persons, and to aliens of African nativity and to persons of African descent." Some years ago, Judge Sawyer, a United States Judge in California, lecided that this clause excluded Chinamen, but the higher courts have never passed up-

In this land of liberty, it is difficult to see how anyone, no matter what nationality he may belong to, can be excluded from the priviliges and immunities of citizenship, after complying with the law. Germans, Irishmen, Italians, Africans, and people of every nationality have become without opposition citizens of the United States, and can Chinamen be justly

Persons who know me need hardly be informed that I could not and would not write such a communication. And yet, from all the circumstances, it looks as if the writer meant to create the impression that it might be from me. I do not design that anyone unacquainted with me should be left for a moment in doubt. I would not presume to deliver such advice to a body of men who are abundantly capable of controlling their own conduct.

If the design of the writer was to paim off such a communication as mine, then I can use no language too strong to denounce the attempt of the author, wheever he may be, as disingenous and cowardly.

THE ELECTION TOMORROW.

Judge Calhonn's Address to the Voters of Fulton County.

OBDINARY'S OFFICE, Atlanta, November 23, 1887 .- To the People of Fulton County: Having been charged by law with the responble duty of arranging the details for the election to be held on next Saturday, I deem it appropriate that I should make some suggestions to the general public. So much interest is felt in the question involved that the contest will naturally be exciting. Nothing is more desirable than that it should be an honorable and peaceful election; nothing is worse, or nore undesirable, than that difficulties should arise and disorder prevail at the polls. At the election two years ago, notwithstanding the fact that there were only two precincts in the city, and immense crowds assembled at them, perfect peace and good will prevailed, for which our city received much favorable comment. There are now six precincts in the city, and ample arrangements for every legal voter to deposit his ballot. Certainly there can be no occasion for dissatisfaction or disorder. I would suggest that unnecessary crowding at the polls be especially avoided. There can be no necessity for this. As far as I can individually control the matter, the election shall be fairly and lawfully conducted. I trust it will be the resolve of every citizen that on election day he will do nothing which would tend to any disorder or breach of the peace, and do all in his power to make the contest friendly and honorable. We will certainly then, again, have cause to congratulate ourselves on our good citizenship. W. L. CALHOUN, Ordinary. [Communicated.]

INSULTING GRAY HAIRS

The Dastardly Conduct of the Prohibitionists

IN JEERING JOHN SILVEY'S FAMILY

The Torchbearers Hissing and Sneer ing at Mr. John Silvey and His Family.

The "kid glove" politicians of the prohitionist party have been instituting compari-sons between the fine linen worn by themselves and the poorer clothing worn by the working-men who belong to the anti-prohibition party. But it was reserved for the "kid gloves" to ommit the grossest outrage of the campaign

Mr. John Silvey is one of the oldest and nost venerable of Atlanta's business men. He is simple in manner and honest as the day is long. As the prohibition torchlight proession was to pass his house he took a seat to await it. Sitting around him were his venerable wife, his beautiful daughter and inmates of the house.

'As soon as the old gentleman's presence was ecognized, the torchbearers set up a pronged hiss, interrupted by jeers and insulting remarks. The presence of the old man's wife, the respect due his daughter, did not restrain the insults which could be heaped upon sensitive and retiring nature.

To the Sober Thought of Our People What is the basis of prohibition? The basis of that crusade is the affirmation that fernted beverages are detrimental to the human tem, and that, therefore, they must be abstained not rely on moral suasion; they call to their help the law, force! lies the whole question. Now it remains with you, people of Fulton county, to see if you will allow these men to dictate to you what you will drink, any more than what you will think or believe!

The use of fermented beverages is as old as the annals of history. Not to go further in past ages, we all know that the great author of our religion, the Christ, used them and approved them. We read, that at the wedding, the wine having given out. He created a new supply by the exercise of his almighty powers. We read that at the Lord's Supper He was taking wine with His apostles, that He blessed some of it and gave it to them in remembrance of Himself and of the impending sacrifice of His life on the cross.

We know that for nineteen centuries the Catholic church and all the eastern churches have every day, all over the world, used wine to commenorate that momentous event. Moreover, in social life all the populations of Europe, and of all other portions of the globe settled by Europeans, including America, have used fermented beverages, from the pope of Rome to the humblest priest, nun, monk or Christian; from the mightlest monarchs to the most abject peasant. Luther himself, the father of Protestantism, every day enjoyed his mug of beer or his glass of wine, and we have of him very nice poetical effusions in which he celebrated the benign influence of it.

With truth we can say, and none will dare contra-

antism, every day enjoyed his mug of beer or his glass of wine, and we have of him very nice poetical effusions in which he celebrated the benign influence of it.

With truth we can say, and none will dare contradict it, that, for nineteen centuries, the greatest, the wisest and most virtuous men, the greatest saints of all the churches, the best and purest women, including our mothers, grandmothers and ancestors, have used fermented beverages, not as a medicine only, but as a wholesome nourishment, as a useful and agreeable excitant, as a source of social and personal enjoyment. It is this usage, consecrated by all ages, approved by the man-God, that the prohibitionists want today to abolish by force. If ever there was a personal right which could be considered as inalienable and sacred, it must be the right to the use of fermented beverage which the buman race has enjoyed since the most remote ages known in history, and which the divine son of God limself, came upon earth to establish the new covenant and new order of things, did emphatically approve and sanction. The exercise of that sacred personal right, which must be as dear to a real man as his right of manhood, is the one the people of Fulton county are now called upon to defend against the attacks of a mottey crowd of fanatics, of politicians and of morall-eunucks who, being weak themselves, want to deny to others the privilege of free self control. That right only, nothing else, is the issue in the prohibition campaign! That right was taken away from us, by a surprise, two years ago; it must be reconquered next Saturday by such an undoubtful majority that none dare any more put it in question.

Remember, people of Fulton county, that in claiming the right to our fermented beverages, we have on our side, in the past, the Christ, all the great, good, wise and saint men and women of all ages; in the present times such eminent men as Lincoln. President Tilden; in our city, Governor Brown, Judge Hoyt, Judge Collier, Judge Lumpkin, Judge Butt, Dr. Spadding,

In the excellent address delivered by Mr. Grady, last night at the warehouse, he spoke to the colored people of their Worlds' fair, which is to be held here, of their remarkable improvement in handleraft, and of the fine exposition which they would be able to make, and the interest and pride which their white friends take in their progress, and their effort to show the advancement made by them, but he said the best proof you can give of them, but he said the best proof you can give of your worth and progress in morals and character is to be able to point to Atlanta as a city of 76,000 people, from which you helped to banish barrooms and aided in keeping barrooms out. This was a strong point, well presented, and evidently made a fine impression. ABOUT TOWN.

There were more people in attendance upon the churches yesterday than ever known before on Thanksgiving day in Atlanta.

It is difficult to tell why so many more attended divine service yesterday than on any preceeding Thanksgiving day. The fact alone is recorded. The services were especially interesting, the music being a feature of the day, and everywhere the people seemed to enter into the proper spirit of the occasion.

In point of general observance, less regard is paid to the day in the south than in the north; the mechanics at work upon houses, painters, and artizans generally, wielded their several implements of trade, and the business streets of the city were as crowded and as lively as they generally are.

It is a pity that the day is not universally kept, as the people, by all means, should be willing to devote one out of 365 to acknowledging the manifold favors and blessings they have received from the giver of all good.

In the city there was no difference between the day and an ordinary day. The stores were all open; the factories and mechanics generally at work, and the streets presented their everyday lively appearance. The banks and postoffice were closed, the day being a legal holiday. There was no session of any of the day. There was no session of any of the rts, and all the departments of state at the itol were shut. The public schools were ed, and an unsual number of children were

upon the streets.

The railroads brought quite a number of people to the city from the suburban and neighboring towns, who spent the day in the ity. The theaters in the afternoon were well tetended, and the street cars did a good busiattended, and the street cars that a good husi-ness all day. While the day was cloudy, it was warm and pleasant, and, on the whole, was one of the pleasantest of the month. Family dinners were numerous, and the charitably disposed were not unmindful of the presence of the poor among us.

It is seldom these days that one hears of the defeat of an effort to establish a free school or public school system in a community, and yet recently in Georgia, an effort to organize a system of public schools in Newton county, was lefeated by a considerable majority.

defeated by a considerable majority.

The only argument that can be used against the system is, that it increases taxation, and places the burden of support upon the property holders, who are generally in the minority. It is true that some of the opponents declare that the effect of education upon the negro is bad, unfitting him for manual labor, but there is generally enough public spirited men in a community to establish the system.

Explanations are in order from Newton county.

Small boys are capable of doing almost any-In fact, there is nothing that they will not

In fact, there is nothing that they will not do in certain cases; and their actions seem to be inspired by the prince of evil deeds.

A gentleman was describing yesterday a fight he witnessed on East Peters street between two small boys, aged 11 and 12 respectively. Just how it originated he did not know, but the chaps began at first a very interesting boxing match, which soon turned into a rough and tumble fight. In a very few minutes, the younger, who was the stronger minntes, the younger, who was the stronger and stouter of the two, got his antagonist and stouter of the two, got his antagenist down, and was lying upon him apparently comfortable, mortifying him by saying every now and then, "you can't fight; you thought you could whip me, didn't you?" The gentleman declared that at that stage of the game he thought everything was over, when to his horror, the boy on top reached out and got a handful of sand and deliberately poured it into his unlucky opponent's mouth.

Could anything be more humiliating?

It is the subject of oft quoted remarks by men of all standing and vocation, that what-ever way the prohibition election goes, that they earnestly hope it will go by a decisive majority, so as to settle the question perman

ently.

Prohibitionists have been heard to say that if they knew the election would go wet, that they would either not vote at all or else vote wet, in order to make the majority great; and anti-prohibitionists are on record as saying that if they were certain that the result would be favorable to the prohibition party, they

that if they were certain that the result would be favorable to the prohibition party, they would vote to swell the marjority. These remarks indicate one theory, and that a hopeful one, too—that the people of the great city want to see all causes of discord and fer-ment forever removed from among her people, and with all the sincerity of hearts that love the good of Atlanta beyond and above every-thing else, desire to see a reunited people workhing else, desire to see a reunited people work ing for the good of the city.

The audience at the warehouse may have been very dry, but the audience at the opera house last night was decidedly the opposite. One of Charley Drew's gags, to the effect that a confere had "bought 500 umbrellas on a spec., knowing that the town would be wet next Saturday," brought down the house. For about five minutes it looked as if the crowd propers would get done cherrier.

that they might see and hear Erminie, and at night Nanon was greeted by one of the largest houses of the season.

The Carleton company seems to have been constituted to sing Nanon, so well does each member fill the role assigned to him or her as the case may be. Nanon is a beautiful opera, full of real music. The performance last evening was a finished one, despite the fact that the head and front of the company lay on a sick bed at the Kimball. For several days Mr. Carleton has been ill, but he hoped to be able to appear at all of the performances of the company here. Yesterday morning he was quite unwell; but he insisted upon appearing at the matinee, and the result was that he was quite unweil; out he insisted upon appearing at the matinee, and the result was that he was compelled to disappoint his audience last night. took his brother's place as Hector, and did very well indeed.
There were no other changes in the cast. Miss Lily Post, as Ninon de l'Euctos, charmed everybody. Her singing of an interpretated waltz, sang in the second act, was warmly applauded, and she was compelled to respond to several encores in the course of the evening.
Miss Rice—well, she was all there; pretty and vivacious as ever, making everybody happy by her merry presence. As Nanon she is perfect.

Mr. Murray earned an enthusiastic encore for his singing of the waltz song in religious tempo in the third act.

Mr. Drew made quite a good deal of fun out of de Marsellae. The part does not call for horse play, and Mr. Drew showed that he is a genuinely funny fellow who does not depend on hand-springs for his good parts.

WOMEN IN POLITICS The Atlanta Campaign Viewed

TAKING WOMAN OUT OF HER SPHERE.

And Placing Her in the Confusion of Politics to Entice Voters From Their Convictions.

From the Eufaula, Ala., Mail.

The prohibitionists of Atlanta are at great labor to prove that prohibition has not hurs the place. Well, a good deal depends upon what estimate Atlanta holds her reputation. If she does not value it, then prohibition in the terrest has had no injusting affect to the control of the control that respect has had no injurious effect upon her. But if she does value it, then she has suffered almost irreparable damage. She is no more the Atlanta she has been than Eufaula would be hersel if her representative society ladies were congregated on the streets in company with "colored ladies" and in company with "colored ladies" and cajoling white and black to vote cat whisky. Let us see how much meric

there is in this question any how.

There are not, perhaps, nor has there ever

been, ten confirmed drunkards in Atlanta. In Eufaula, we believe, there is not a selitary one. Well, in order that these ten may not be subjected to the temptatiom of drink the personal freedom of fifty thousand people is annulled. This is the logic of prohibition legisgation. Drunkenness is a sin, a crime, we grant. God Himself so holds it. So is theft but because one man may steal and disgrace his family and put his soul in jeopardy, it does not follow that the hands of all other people must be manacled by the few or many selfappointed men of fanatical integrity. A good many equally honest men might object to being so manacled, yet that would be no indication that they too were thieves. So, too, with bearing be no false witness, another mortal sin; but because some men will break the commandment against it it does not follow that the tongues of all other men shall be silenced. So likewise with with a hoe, an ax, a knife, a gun, or what not it does not follow that the balance of mankind must be deprived of the use of these. Yet it is just as rational as that a few people who do not drink, aided by a few political and other hypocrites who do, and who are prohibitionists spoils, should say to the rest: want to, but you shall not:" or that because there may be one drunkard, or ten, the cause that made them so must be removed, lest the rest also become drunkards. If the prohibitionists are right, then by analogy all the fire arms should be abolished, because one man having committed murder with them, some other man or men might do the same thing. How absurd! Verily man can become a very silly creature. But if the conduct of men in we say of the queen of the home, who, defiling her crown in the politico-fanatical mire, yields her sceptre in the struggle. Vale then to the tranquility of home; adieu to the sanctity of the fireside; farewell to that kingdom set apart in the heart of man for the dominion of women, and over which she has ruled for aye, for in the equality of the sexes is shattered the last vestige of her glory, and on each ballot she may inspire the unholy zeal of her compatriots may be inscribed "A Desecrated Home," its unity, broken, its fragrance vanished, its flowers withered; its vines trailing and its garden of of hearts wherein bloomed in perennial beauty the twin roses of love and duty, a dreary win ter waste of filial, fraternal, conjugal desolu-tion. This is inevitable. Take woman out of her sphere, unsex her, and she ceases to com-mand man's deference, his respect even, and these lost, what is there more for more humilating epitaph could be written over her remains than that "she was no better"

than a man." That cause cannot be right which'degrades our women, and if we had no other reason than this we should oppose it most heartily. And on account of the impetus given to wo-man's misdirected influence in the Atlanta campaign we shall look upon a prohibition victory there as a public, not to say a national.

For the good impulse prompting the women and ministers in the cause, we have the greatest respect, but the solicitude of the wild politician discloses the cloven hoof in the cause itself, and furnishes for it the best illustra-tion of "Satan rebuking sin." They prosti-tute the pulpit, the home, the ballot, and for what? To deprive their fellow-men of a privilege granted him by Almighty God, who permits the use and condemns the abuse only. But your super-sanctified prohibitionist would go further, and he condemns the use. Is it, can it be right? Besides, and here is a practical point: Prohibition never has prohibited, nor will it ever prohibit as long as man is created with an appetite. It is contrary to the law of his being and the right granted him by an all-wise creator-his own free will-women—God bless them!—opposed notwithstand

We are led to these reflections by an article appearing in the Mail of yesterday giving an account of the condition of things in Atlanta growing out of the prohibition campaign there; demoralizing insurrection will ever occur here for we love our people too dearly, we have too high an admiration for our womanhood to see them descend from their lofty throne in our hearts to the purlieus of politico prohibition, or other public wrangle. Let them stay at home and "jaw" their husbands there if they want to, but

Whatever betide us, of good or of ill,

KIT MUST QUIT.

So Says His Excellency, J. Tyler

THE INSIDE HISTORY OF THE ORDER Did His Stand On the Prohibition Question Have Anything to Do With It?

-Some Opinions. The bright lights which have been illuminating the large vacant lot corner Loyd and Hunter street, where Yellowstone Kit has been addressing 5,000 to 6,000 people each night for two months past, did not burn last night, and the locality was in total darkness, save for the one sickly street light on the corner near the church. Neither did Yellowstone Kit's beaming countenance shine from the

rge stage upon the lot. And as a consequence there were many dis-pointed men in Atlanta.

About noon yesterday it was currently rumored on the street that the chief of police had called upon Yellowstone Kit at the Kimball and called upon Yellowstone Kit at the Kimball and informed him that he could not again collect a crowd and deliver an addres from the stage upon that lot. The rumor quickly became general and attracted universal attention. Men stood in groups discussing it and everywhere a desire to know the truth was manifested, while there was as much anxiety to ascertain the cause for rumored police interference.

A CONSTITUTION reporter upon hearing the rumor called at the great orator's room at the Kimball but he was not in. At police head-quarters, however, Chief Connolly was found, and in reply to a question said:

"Yes, I have just notified the gentleman that he cannot speak there any more."

"And why?"

"I suppose I could to be the control of the contro

"I suppose I could tell but I had rather you ould see Mayor Cooper."
"And what has he to do with it?"

"And what has he to do with it?"
"Everything. I received my orders from him. I suppose however, I had just as well tell it all. This morning the ladies residing at 79 Loyd street, a boarding house next to Kit's stand, came to me and asked me to break up his meetings. They said that he was annoying their boarders and that every one would leave them if Kit was not removed."
"What did you do?"

"What did you do?"
"I informed them that Kit had a license and that I could not interfere with him, and in-structed them to go to Mayor Cooper. They called upon that gentleman and repeated to him what they had said to me. He then sent for me and instructed me to serve Kit with the notice and I did so." "Have you ever had any complaints against Kit before?"

"None. I believe there was something said about men spitting on the church steps, but I put a stop to that."
"Then the ladies next door never complained before he made that anti-prohibition

'No, not that I know of. I have heard the "No, not that I know of. I have head the rumors about this thing, and when I gave Kit the order I was afraid people would say that he was moved on account of that speech, and said so to Mayor Cooper."

"What did he say?"

"He said he'd take the responsibility."

"What did Kit say when you served him?"
"He was surprised, but acted as nice and leasant as could be."

end was surprised, but acted as nice and pleasant as could be."

Soon after leaving the chief the reporter encountered Mr. Jos. Thompson, Mr. Wm. Venable, Mr. Jacob Haas, Mr. John Stephens, Mr. J. S. Lester and others, who were discussing the matter. They were all more or less displeased, and after a consultation decided to call upon Mayor Cooper.

That gentleman was engaged with the registrars in the city court room rectifying the registration and could not leave. Mr. Venable, however, was admitted to the room and consulted with the mayor. In the conversation Mayor Cooper said that the lady represented to him that the crowds gathered by Kit were disorderly and were objectionable to her boarders, all of whom threatened to leave her if she did not secure the removal of Yellowstone Kit. This plea the mayor considered a good one, and he issued the order. As Mr. Venable rejoined the party outside, he remarked: emarked:

"Cooper has done what he thought right with the statements before him."

After a further consultation, Mr. Venable and Mr. Thompson agreed to call upon the ladies and try to induce them to withdraw their objection for one night. The ladies, however, declined to do so, saying that every boarder would leave if Kit continued on the lot. They asserted that two fights had taken place there Wednesday night. After ascertaining that the ladies would not withdraw their objection, the gentlemen called upon County Commissioner Kiser and asked for the courthouse basement, but the place had been engaged for the night.

sioner Kiser and asked for the contrhouse basement, but the place had been engaged for the night.

"Then can we let him speak from the courthouse steps?" asked Mr. Thompson.

"Oh, that would hardly be fair," said Mr. Kiser. "You'd disturb those inside, and you can have it tomorrow night."

The gentlemen then found Yellowstone Kit in conversation with Senator Brown and Dr. R. D. Spalding, and for quite a while discussed the situation. Kit held a long talk with the gentlemen, and then returned to his hotel.

Last night a large number of people, who had not been notified of the police interference, called at the grounds. There they learned what had transpired. The colored people, who have manifested a devotion to this man which is astonishing, stood about the corner in groups, and finally a crowd of two hundred or more started towards the Kimball. They stopped in front of the hotel, and sent in a delegate. Kit was in his room taking an evening nap; but knowing the love of the people for him, went below. As he stepped from the entrance, the negroes exclaimed:

"There comes Kit!"

"The little man walked out, and, catching the lower of the little man walked out, and, catching the lower of the little man walked out, and, catching

"God bless him!" "God bless him!"

The little man walked out, and, catching them by the hand, spoke kindly to each. Stopping near the curbstone, he lifted his hat and addressed the crowd, explaining all that had taken place, and requesting them to do nothing until he could talk to them again.

Last night a reporter called at the hotel to see the man about whom the sensation has beed created. He was with his business manager, and, in reply to a question, said:

"Yes; I regret this very much, especially as there is no real good cause for what has been done. I wanted to speak tonight, but I could not do so." not do so."

"Have you any idea why the objection was

"Have you any idea why the objection was raised?"

"It might be policy in me to say no. But I won't say no. I have an idea it was done because I made that anti-prohibition speech. Those ladies in that house have been remarkably kind to me from my first night on that ground. They have not only looked out the windows, but have let their neighbors do so. They have applauded our work, and have allowed us the use of a room in the house for a dressing room. I am sorry it has happened. I never speak unkindly of any one. Why I have offered the prohi party the use of my stand, my band, my lot and my lights, together with the police protection. I have. The whole trouble was caused by that speech, and I am proud of the spech, because it may make some one do what is right."

The order issued by Mayor Cooper and served by Chief Connolly created quite a feeling. The antis asserted that the complaint was made at the instance of the prohis, because Kit had made an anti-prohibition talk.

"Why," said a prominent member of the anti party last night, "I have investigated this thing, and I know that I am right when I say that Kit would never have been moved had he not made that anti speech. Now, he has been talking there night after night for two months, and no one has complained. At that boardinghouse the windows have been full of ladies every night to hear him. The back porch has been full too and everything was smooth with the little man with curly locks until he made an anti-proech. On the day after that he was asked to move. Why wasn't this descrition of boarders threatened before he made that anti speech."

"Don't know."

today. I'll bet that's the key to the whole
thing. Now, if Kit had falked for prohibition
he d never been moved."
Mr. Corrigan's rumored visit to the boarding
house was investigated and found to be true.
Mr. Turnbull, president of the Young Men's
Cochletted lieb, was seen, and said:

and I sent him."

"And why did you send him?"

"Because we were afraid that it would be asserted that this was the work of the prohis, and we sent him so that he could get the seate."

"And what were the facts?"

"Just what the lady reported to the mayor and chief of police."

"How many visits did he make?"

"Only one, and that after the order was

"Only one, and that after the order made."

"Why did Kit become objectionable to the ladies only after he had made his antispeech?"

"I know nothing about that. I only know that the prohibition party had nothing to do with this, and we are in no way responsible for it. We regret it and wish he had not been molested."

YELLOW STONE KIT AND THE PROHI-BITIONISTS. They Have Not Interfered With his Bus ness. He Was Stopped by an Anti Prohi-

bition Mayor Over the Protest of the Prohibition Chairman. Mayor Cooper, who is a pronounced anti-pro hibitionist, on yesterday issued an order to hir der Yellow Stone Kit from holding his mee

ings for the sale of his patent medicine on the

lot occupied by him for sometime. This action was taken at the written com plaints made to the mayor by ladies living in that locality who protested that his blasphemy and vulgarity made their residences intolera ble. The immediate cause of this petition wa the fight of two negro women and a negro man and white man, in which knives were used, and constant disturbance and nuisance The ladies assert that more than a week ago they complained at this as a nuisance and stated to him that their boarders had said they would not stay there if he was permitted to go on. They say he promised them to quit in a week if they would lodge no complaint with

the mayor. When the complaint was lodged Chief Con nolly refused to enforce it, saying that he was satisfied it would be misconstrued at present Judge Hillyer, chairman of the county prohibition committee, and Mr. Turnbull, chairman of the Young Men's prohibition committee approved the chief's course in this matter, and while not attacking the justness of the com plaint, they felt that it would be misconstruct at present.

The ladies went to Mayor Cooper, who in structed Chief Connolly to enforce the order without delay. The chief suggested it might be well to wait for two days. The mayor insisted that the order should be enforced a once. It was then done. Mayor Cooper stated that he acted on his own responsibility, and was entirely responsible for it. That, while he was an anti-prohibitionist, his position as mayor was non-partisan. No member of the prohibition committee or party suggested the mayor's course or knew anything of it until the complaint was made and in the hands of Chief Connolly.

INSULTING GRAY HAIRS The Dastardly Conduct of the Prohibitionists

IN JEERING JOHN SILVEY'S FAMILY. Torehbearers Hissing and ing at Mr. John Silvey and His Family.

The "kid glove" politicians of the prohibi tionist party have been instituting comparison between the fine linen worn by themselve and the poorer clothing worn by the work ingmen who belong to the anti-prohibition

But it was reserved for the "kid gloves" to ommit the gresstest outrage of the campaign

Mr. John Silvey is one of the oldest and most venerable of Atlanta's business men He is simple in manner and honest as the day is long. As the prohibition torchlight pro-cession was to pass his house he took a seat to await it. Sitting around him were his ver erable wife, his beautiful daughter and is

As soon as the old gentleman's presence was recognized, the torchbearers set up a pro-longed hiss, interrupted by jeers and insulting remarks. The presence of the old man's wife, the respect due his daughter, did not re-strain the insults which could be heaped upon

a sensitive and retiring nature.

Voters of Atlanta, what think you of this? Of the fanaticism which respects neither the presence of women nor the hoary head of old

For weeks ladies have been insulted by the niciliary visits of prohibition spies and car

One of these men, Speers, has already been thrashed by an outraged husband. And this husband, who had the grit to fight for his wife, was fined by a prohibition recorder.

When such outrages as these are committed

upon the whites, who have some influence and money to protect them, what are the defenseless negroes to expect? So bold before the election, if the prohibitionists should unfortunately win, next Christ-mas day would find a Jumbo Hunter in every back yard, and a Speers upon every front veranda. At every window-blind will be stationed the spy and the informer, who will not hesitate to swear strong enough to make

Voters of Atlanta, rally in your might tomorrow and VOTE FOR THE SALE. In this way only you can rout informers, spies and men who insult your wives and chil-

The colored people know Dr. Felton to be their friend and defender. Come out, colored men of Atlanta, and hear him in the ablest effort of his life.

Rally to the polls tomorrow, and VOTE FOR THE SALE.

To the People of Fulton County. The issue before the people of Fulton county is a plain and simple one. It is, barrooms, or o barrooms. Do not be driven or misled from his issue. No sophistry can change it. Under ale" of whisky, or "against the sale" of whisky. There is no middle ground.

Two years ago our people drove barrooms rom their midst. There were then 130 from their midst. There were then 130 barrooms in Atlanta. From the day they were driven out they have fought for the privilege of coming back, and it is to replace those barrooms that the fight is now being made on orchibition. We meet this issue face to face. We say that barrooms should not be brought back to Atlanta. We hold that the city has prospered in their absence, and that every good citizen should vote to keep them out. Remember that you must vote "for the sale" or "against the sale." To vote "for the sale" means to bring back barrooms; to vote "against the sale" means to keep them out.

The executive committee of the prohibitionists of Fulton county urge every citizen to rousider the condition of affairs when one hundred and thirty barrooms disgraced this city, and our politics were under the domination of barkeepers, and to remember that on the 26th of November it must be decided whether these barrooms shall be kept out of Atlanta, or whether they shall be brought back. On this issue we appeal confidently to the virtue and intelligence of this people.

Miss Jennie Smith addressed the andience.
She drew a realistic picture of the gilded saloon. She said: "I met today a man who

"Was a barroom ever started for the love of humanity? No! The barroom establishes no church, regards not the Sabbath, and never teaches man to obey the word of God. A little boy being inquisitive as to the meaning of certain signs, was told by his mother that the huge watch told of finished watches inside; the boot of finished boots, etc. He saw a drunkard come out of a barroom and fall to the ground. Going over to the bar-

inside; the boot of finished boots, etc. He saw a drunkard come out of a barroom and fall to the ground. Going over to the barroom the little fellow said: "Mr. bar-keeper, your sign has fallen down. [Applause.] Just why the bar-keeper got mad I can't tell. Wasn't the drunken man the sign of a finished job turned out of the drunkard factory. I came from a city of several thousand inhabitants, that started from a log house—Grovetown, Penn. It has never had a barroom in it. It has no jails, no poor house, no street beggars. When you patronize the saloons you clothe the saloon keeper's children and not your own. [Applause.] In high-licensed Chicago 30,000 youths frequent the saloons. The chief of police, on an inspection tour, found fourteen boys under 16 years of age in one, and his own son in another. How come the boys there? In Philadelphia a man, dying at one of the hospitals, declared that he was paid \$5 per head to stand at the street corner, near a large school, and entice the boys to the gambling den and liquor saloon. Statistics show that five-eighths of penitentiary convicts now are under 35 years of age, and one-half under 21 years of age."

now are under 35 years of age, and one-half under 21 years of age."

Miss White concluded with a word painting of the work of one of these saloons in Ohio. A beardless boy on the gallows, a weeping mother and sister, and the bitter memorjes of a young life sacrificed, that one saloon keeper might fatten on the spoils. There was hardly a dryeye in the audience, and all bore testimony to the eloquence and power of the speaker. At the conclusion of her remarks, in response to the request that all opposed to the return of the barrooms would rise, the entire audience rose to their feet. Every man rose to his feet rose to their feet. Every man rose to his feet as an evidence that he would work for prohi-bition at the polls on Saturday.

Mr. John Silvey is one of the oldest and most venerable of Atlanta's business men. He is simple in manner and honest as the day is long. As the prohibition torchlight procession was to pass his house he took a seat to await it. Sitting around him were his venerable wife, his beautiful daughter, and inmates of the house.

As soon as the old gentleman's presence was recognized, the torchbearers set up a pro-longed hiss, interrupted by jeers and insulting remarks. The presence of the old man's wife, the respect due his daughter, did not restain the insults which could be heared upon a sensitive and retiring nature.

RESOLUTIONS OF SYMPATHY. RESOLUTIONS OF SYMPATHY.

Rev. Hugh Boyd, presiding elder of the Dalton district, offered a resolution of sympathy for Rev. B. W. Huckabee, of the Cherokee circuit, in the loss of his wife by death, since this conference opened, which was adopted by a rising vote.

Rev. Mr. Boyd stated that she was a woman of intelligence, culture and piety, about twenty years of age. Her father was an old superintendent of a Sunday school.

CHARGES AGAINST A PREACHER. CHARGES AGAINST A PREACHER.

Rev. Hugh Boyd, presiding elder of the Dalton district, preferred charges against Rev. J. H. Dunn, sent last year to the Tunnel Hill circuit. In February last Mr. Dunn abandoned his field in company with a woman not his wife. The presiding elder suspended him, and since then Mr. Dunn had sent in his credentials and withdrawn from the ministry and

church.

The conference appointed the following as members: of the special committee of eleven to try the charges against Rev. J. H. Dunn, viz.: R. H. Waters, E. F. Dean, W. H. Sullivan, J. L. Fowler, J. J. Donnehoo, J. B. Wilkins, L. D. Ellington, T. G. Chase, D. A. Sullivan, B. M. Hipp and J. H. Hurley. The bishop appointed Rev. J. A. Thurman as chairman, and the conference appointed Rev. Hugh Boyd, presiding elder, prosecutor, and Rev. R. H. Robb to defend Mr. Dunn.

Bishop Walden called attention to the statistics of 1886. There were 3,599 members of the charch and only 2,589 pupils of the Sunday school.

Reports from Gilmer and Gwinnett counties showed a change taking place in those counties to prohibition. Middle and south Georgia were dry, and the indications point to Georgia taking the front rank as a prohibition state.

Interesting services were held at the church last night.

TODAY'S PROGRAMME. TODAY'S PROGRAMME.

This morning at 9 a. m. the conference will open with devotional exercises, conducted by Rev. A. F. Ellington.

At 10:30 a. m. a short sermon will be preached. At 11 o'clock delegates to the general conference will be elected.

intimate friends of the young couple to witness the ceremony.

No happier wedding has occurred this season. Mr. Mackey is an attache of The Constitution. He is a native of Virginia, but has resided in Atlanta for several years, and is well known, and is quite popular and much beloved by a large circle of friends.

After the ceremony the bridal party were driven to the Florida house, 58 North Forsyth street, where a delicious lunch was served. A number of handsome presents were bestowed by friends of the happy couple, among them a pretty silver set from admirers in Clarksville, Tenn., the former home of the bride.

The Constitution mingles its congratulations with those of their host of friends, and wishes Mr. and Mrs. Mackey a pleasant honeymoon.

The Ohio State Authorities Examine the Baking Powders.—Searching Investigation Cleveland's the Best.

The commission appointed by the Ohio Legislature to examine food products has made its report on baking powders. The state chemist, Professor Weber, analyzed thirty different brands. Cleveland's Superior Baking Powder is in point of merit at the head of the list of all the cream of tartar baking powders. It contains the most cream of tartar and produces the largest amount of carbonic acid gas, the leavening agent. The following from the official report will enable the public to form an intelligent opinion from unprejudiced and wholly disinterested sources, the comparative merits of two of the powders examined:

\*This powder contained a small percentage of ammonium carbonate, which was calculated as bicarbonate of soda as above.

It will be seen from this report that Cleveland's is entirely free from ammonia, and contains considerably [more cream of tartar (the expensive ingredient of a pure baking powder) and yields more leavening gas than the Royal

He did not believe in Most's doc-es, but the law gives him the right to denounce its execution as an outrage. Mr. Howe add he would show that the man Schwenk was not in the room at the time of the meeting. and that Officer Sachs was not there either. He would show that the reports published of the meeting were not correct, and that Most wrote a denial of the story. There would be duced on the stand a reporter who had en notes and written an impartial report, a orter who knew comething of the German of the French revolution. Last of all, Herr Most himself would be put on the stand to tell his beliefs and disbeliefs. It would be own that when the enthusiast cried, "Why not tonight?" "No-patience; have patience." Fanatic or sook, as Most might be, he should not be convicted on a trumped-up charge.

Adolph Schenck, as he gave his name, of stapleton, L. I., was the first witness, He waved the court Bible aside and astirmed. He said he was a compositor. He told Mr. Hummel that he was not at Kraemer's salon at all that night of the 12th. On cross-examination, witness said he came to the United States in 1879, and met Most two and a half years ago. Two years ago he joined the international workingman's party. The policy of the party was to overturn the government peacefully, if possible, by force, if necessary. Witness was against rebellion. Only a few men could not have rebellion. "I want the whole people to be with us. I do not believe in the destruction of class rule by force. I am familiar with the doctrines. The international workingman's party, to which I belong, is led by Most. It is a party of which the Chicagoan thists were leaders. Anarchy means that the government shall be done away with, that there shall be no government. It means that the government is to be himself. His conscience will be his punishment. I belong to the anarchical wing of the party. There are two wings. The socialist wing is the other."

Moritz Schultzer, a printer in the Freiheit of the side of the conscience will be the search of the party.

Moritz Schultzer, a printer in the Freiheit
office, swore that it was he who presided at
the meeting and introduced Most, and that
Schenck was not present. Schultzer stated
that Most had addressed his hearers as "fellow hat Most had addressed his hearers as "lenow litzens" and that when a voice called out revenge" Most replied: "Not to-day. anybody else, nor had he counselled any violation of law.

Witness told the story of Most's speech substantially as others had done, except in the matter of the assertion regarding arming. He was sure Most did not not say "arm yourselves" that night.

Mr. Nicoll hereupon attempted to get in portions of Most's book on revolutionary warfare, by asking wi.ness if he had read it.

Mr. Howe object, on the ground that the court had already excluded it.

A hot contest followed, Mr. Nicoll finally stating to Judge Cowing, in private, that he wanted to prove that in his book Most instructed his followers, when called upon as witnesses, only to answer such questions as would prove an alibi or procure their liberty.

HE PUT ON STYLE, But Used Trust Funds Committed to His

Care.
CINCINNATI, November 25.—A morning paer says it has been discovered that the late harles Albert Kebler, the attorney who com-itted suicide Wednesday was driven to the sed by the approaching revelation of heavy forgeries committed by him in the management of estates and of trust funds committed to his care. An estimate is made that the liabilities thus incurred amount to about \$175,000, while property left by Kebler wil not exceed sixty thousand dollars. The persons most seriously affected are his own family and friends. Astonishing revealation displayed the motive to Astonishing revelation disclosed the motive to be nothing more than to keep up a style of luxprious living beyond his means. The use of rust funds having been begun, a continuance became an apparent necessity. An instance is given where ten thousand dollars was invested or a client, and all papers relating to it, including mortgage, were forgeries. Friends ind the case so strange that they readily agree that some form of insanity must have led him no a course so far removed from what might have been expected of one with his training and antecedents.
